
ROHIT SUTAR

DATA SCIENCE INTERN | PYTHON | MACHINE LEARNING | SQL | DATA ANALYTICS

PROFILE

Data Science Intern with hands-on experience in Python, Machine Learning, SQL, and Exploratory Data Analysis. Currently working on real-world datasets to build predictive models and generate actionable business insights. Skilled in Pandas, Scikit-learn, Matplotlib, and data preprocessing. Passionate about solving complex problems using data-driven approaches. Actively looking for Data Analyst / Data Scientist roles and available for immediate joining

EXPERIENCE

DATA SCIENCE INTERN – CLOUDBLITZ (POWERED BY GREAMIO)

SEP 2025 – PRESENT | PUNE

- Analyzed real-world datasets to extract actionable insights improving decision-making accuracy.
- Performed data cleaning & EDA on datasets with 10K+ records using Python.
- Built and evaluated ML models using Scikit-learn with improved prediction accuracy
- Wrote optimized SQL queries for structured data analysis
- Created visual dashboards using Matplotlib & Pandas
- Collaborated with developers to integrate ML models into applications

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

SHIVAJI UNIVERSITY KOLHAPUR

JUNE 2022

KEY SKILLS AND CHARACTERISTICS

- Python, Pandas, NumPy, Matplotlib & Seaborn
- SQL & postgreSQL
- Machine Learning & Scikit-learn
- Data Analysis, Data Cleaning, Exploratory Data Analysis (EDA) & Data Visualization
- Statistics
- NLP
- MS Excel

PROJECTS

Strategic Procurement Intelligence Platform

An AI-powered Strategic Procurement Decision Support System built using Streamlit, Machine Learning, and the Kraljic Matrix Framework.
